

Thomas Edison

Thomas Edison was born in 1847 in America. He had hearing problems from having an illness called scarlet fever when he was young. His mother was a teacher so he did not go to school.

He was a careful worker. Almost everyone in the world has used at least one of his inventions. He invented the electric light bulb that would stay lit using electricity for 13.5 hours. He died in 1931. We are still using the electric light bulbs today, over 100 years later.

Name: _____ Class: _____ ()

Read the text above. Give short answers.

1. Could Thomas Edison hear properly?
